

WHAT CAN YOU DO WITH SOCIAL MEDIA

No matter how great your research is, it will only have impact if researchers, librarians, and the general public find it. Social media can do all for you!

Reach a wider audience

Instantly share journal news: awards, impact factors, special issues

Increase your number of Citations

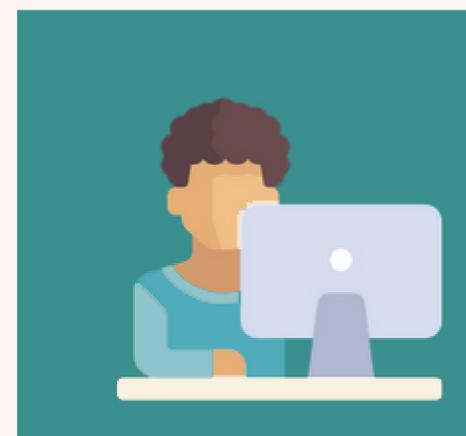

Encourage conversations about your journal and its contents

Gauge interest in topics and evaluate new areas of research

Engage with early career researchers to build a connection with your journal

Boost visibility of articles

Material Science Research India

An International Peer Reviewed Research Journal
